

NOCTURNES, FANTASIAS

Joan Arnau Pàmies

The creative labor needed for the development of this project was funded by the Department of Culture of the Government of Catalonia. This work exists thanks to Catalan taxpayers. For this reason, I want to share it with you at zero cost.

This is meant as a token of the possibility of a fully **public**, **democratic**, and **planned** cultural production outside of the market.

The **limited edition on CD** is designed by **Ana María Bermúdez** and contains an essay by composer **Pablo Santiago Chin** with some thoughts on my work.

The friends at **Sideband Records** and I have very much enjoyed preparing this edition. We hope you like it!
